Draft for University Legal Office review. This form is not yet approved. The Privacy Policy is also a draft pending the same review.

Research Information and Informed Consent Form

Study: Precision Feeding System for African Hito: Hybrid Approach to Biomass Monitoring and FCR Optimization

Researchers: Jeff Edrick C. Martinez, Karl F. Calimotan, Jay R. C. Castillo, Aime G. Detore

Adviser: Thesis Adviser, College of Information and Communication Technology, ISUFST Dingle Campus

Version: 1.0 — 26 October 2026

1. Invitation

You are invited to take part in a capstone research study that evaluates the PakaonAI Precision Feeding System. The study will be conducted with **20 fish farmers** and **10 IT professionals**. Your participation is voluntary. Please read this form, ask questions, and decide whether you want to take part.

2. Purpose

The study develops and evaluates a precision feeding system for African catfish. It combines an ESP32-based feeder with a web dashboard that recalculates feed amounts from manual biomass samples. The evaluation uses the **ISO/IEC 25010:2023** software quality model to assess functionality, reliability, compatibility, security, usability, maintainability, efficiency, and portability.

3. What you will be asked to do

If you agree, you will complete a questionnaire about the PakaonAI web dashboard and feeder hardware. You will rate statements about the system and may add comments. The questionnaire is available on **printed paper** or through **Google Forms**.

- You may skip any question.
- You may stop at any time.
- You do not need to provide your name.
- We will not audio-record, video-record, or photograph you.
- We will not ask for your email address, phone number, or other contact details in the form.

You may answer at your own pace.

4. Information we collect

ITEM	REQUIRED?	NOTES
Name	Optional	You may leave it blank.
Date	Yes	Used to organize the responses.
Role	Yes	IT expert, hardware/electronics expert, agriculturist, or farm operator/field expert.
Questionnaire answers	Yes	Your ratings and optional comments about the system.

We do **not** collect email addresses, phone numbers, government IDs, health information, biometrics, precise location, audio, video, or photos. Please do not write sensitive personal information or another person's data on the form.

5. Confidentiality

- Only the four researchers and the thesis adviser will have access to the raw responses.
- Printed forms are kept in a **locked cabinet** accessible only to the researchers.
- Google Forms responses stay in Google Forms/Drive and are accessible only to the researchers. The form is configured **not to collect email addresses**.
- Results are reported in **aggregated or anonymized** form.
- We will not name you, quote you, or publish your photo without separate written permission.
- The capstone paper may be published in a reputable research journal. Only aggregated or anonymized results will be included.

6. Risks and benefits

There are minimal risks. You may feel uncomfortable answering some questions; you can skip them or stop. There is no direct payment or guaranteed benefit. Your participation helps evaluate a precision feeding system for smallholder catfish farms and contributes to the capstone research.

7. Voluntary participation and withdrawal

Participation is voluntary. You may refuse, skip questions, or withdraw at any time without penalty. To withdraw, contact the Data Protection Officer at **privacy@pakaonai.syntaxure.dev**. Withdrawal stops future processing. Data already aggregated or published in a form that no longer identifies you may not be removable.

8. Retention

We keep the research data until the capstone is completed and the resulting paper is published in a reputable research journal. After that, we keep it only for the period required by the University's records policy or the journal's data-availability policy, whichever is longer. Then we securely destroy it: printed forms are shredded; Google Forms responses are deleted; any research contact data in Supabase is deleted.

9. Data privacy

PakaonAI processes research data under the Philippine Data Privacy Act of 2012 (RA 10173) and its Implementing Rules and Regulations. The legal basis is your **consent**. The Privacy Policy explains your rights and how to exercise them: **https://pakaonai.syntaxure.dev/privacy** (draft pending University Legal Office review).

Data Protection Officer: Jeff Edrick C. Martinez

10. Consent statement

Please tick each box:

- [ ] I have read and understood this information sheet, or it was explained to me in a language I understand.
- [ ] I am **18 years old or older**.
- [ ] I understand that my participation is voluntary and that I may skip questions or withdraw at any time without penalty.
- [ ] I understand what data will be collected and how it will be used, stored, and published.
- [ ] I agree to take part in this study.
- [ ] I agree that my **anonymized or aggregated** responses may be used in the capstone paper and a research journal.

Participant name (optional)	Date
Participant signature	Researcher signature

Hiligaynon summary (courtesy translation)

Ang English nga bersyon amo ang opisyal. Ini nga summary para sa kasanag lamang.

- Ginadapit ka sa isa ka capstone research sa PakaonAI Precision Feeding System.
- Ang questionnaire para sa 20 ka fish farmers kag 10 ka IT professionals.
- Optional ang name. Ginakinahanglan ang petsa, role, kag questionnaire answers.
- Wala kami ginapangayo nga email, phone, audio, video, ukon photos. Indi magsulat sang sensitibo nga personal data.
- Kami lamang nga researchers kag adviser ang makakita sang raw responses. Ang printed forms yara sa locked cabinet; ang Google Forms responses yara sa Google kag restricted.
- Voluntary ang pagpartisipar. Mahimo ka mag-skip, mag-stop, ukon mag-withdraw bisan san-o, nga wala sang penalty.
- Aggregated ukon anonymized lamang ang i-publish. Indi ka pagngalanan ukon i-quote nga wala sang separate nga pahintulot.
- Ang data ginatago tubtob matapos ang capstone kag mapublish ang paper, tapos i-destroy.
- Kontak: privacy@pakaonai.syntaxure.dev.

Google Forms version — settings

- **Responses → Collect email addresses: Off.**
- **Limit to 1 response:** optional. If on, respondents must sign in to Google; that may collect an account identifier. If anonymity matters, leave it off and use separate links per group.

- **Edit after submit: Off** unless corrections are needed.
- Do not enable file uploads.
- Restrict editing/response access to the researchers.
- Do not export responses to Supabase. Keep them in Google Forms/Drive as stated in this form.
- Delete the responses after the retention period.

Review notes: This form is a draft. The Privacy Policy is also a draft pending the same University Legal Office review. The study does not collect sensitive personal information. Confirm the final Privacy Policy URL before printing. The paper's Ethical Considerations section should be updated with the human-participant paragraph in `docs/legal/paper-ethics-paragraph.md`.
